EXPERIMENT:5

EXPERIMENT 5 — USER PERSONA

REEL TOGETHER / Design for people who share cinema across cities

UX RESEARCH ARTIFACT

PRIMARY PERSONA

Aarav Mehta

Age 21 · College student
Chennai, India

ABOUT

A movie lover who wants to keep shared cinema plans alive with friends who live in other cities.

DIGITAL BEHAVIOUR

- Uses mobile apps to discover films and book tickets
- Coordinates plans in group chats
- Likes tracking movie memories

TECH COMFORT
High · Mobile-first

PERSONALITY & CONTEXT

- Social and film-focused
- Values shared experiences
- Comfortable with digital booking

CORE NEED

Coordinate a cinema outing across cities without endless messages.

Goals

- Find aligned showtimes with friends
- Book a ticket with fewer steps
- Join a pre-show lobby together
- Save memories in Cine-Passport

Frustrations

- Time zones make planning confusing
- Friends book different showtimes
- Group-chat plans often fall apart
- Watch history is scattered

Needs from Reel Together

SYNC
Aligned showtimes

CONNECT
Shared pre-show lobby

REMEMBER
Film & theater log

PERSONA QUOTE

“I want movie night to feel shared, even when my friends and I are in completely different cities.”

Illustrative persona based on the Reel Together brief — validate with real users.
