EXPERIMENT 6 — TASK-FLOW DETAILING

REEL TOGETHER / From choosing a film to saving the shared memory

USER GOAL

Plan a cinema outing with friends in different cities, book a ticket, and keep a record of the experience.

PRIMARY HAPPY-PATH FLOW

1 SIGN IN
Create an account or log in to reach the home screen.

→

2 PICK A FILM
Search or browse movies; open the film details.

→

3 START PARTY
Choose friends or share an invitation link.

→

4 SYNC TIMES
Compare local showtimes; check the alignment.

→

5 BOOK
Choose seat, pay, get ticket.

AFTER BOOKING

6 PRE-SHOW LOBBY
About 10 minutes before showtime, friends can chat and see who is ready or on the way.

→

7 WATCH THE FILM
Each friend watches at their local cinema, with showtimes aligned as closely as possible.

→

8 CINE-PASSPORT
Log the film, theater and friends; track stats and earn eligible badges.

DECISION POINT — SHOWTIMES ALIGN?

YES — Continue to seat selection and booking.

NO — Try another time, theater or date; invite the group to choose again.

Keep the group informed when no close match is available.

FLOW DESIGN NOTES

- Show each friend's local time and city clearly.
- Make the “aligned within 12 min” status visible.
- Confirm booking and show the e-ticket.
- Keep lobby and Cine-Passport access easy to find.
